

Wireless curtain motor driver

ENOCHEAN 868MHZ

Control the electric curtain motor by receiving the wireless ENOCHEAN signal

Technical Parameters

Model: RPB.1

Wireless technology: ENOCHEAN, frequency 868MHZ

Power supply voltage: AC110V-AC230V 50 / 60HZ

Compliant current: maximum load 3A (resistive load)

Control number: 1 group of electric curtain output

Rated power: <1W

Terminal Blocks: single terminal can connect up to 2 * 1.5mm or 1 * 2.5mm wires

Working environment: -20-50°C

Humidity: <95%

Protection class: IP20
