

Wireless light actuator

Relay standby 0 power consumption,
green energy saving

RPL.4

RPL.4 four-way high-power 8A relay, control lights
or other loads by receiving wireless ENOCEAN signals

Technical Parameters

wireless technology: ENOCEAN

Frequency: 868MHZ/ASK

Power supply voltage: AC100V-230V 50 / 60HZ

Load current: maximum load 8A (resistive load)

Control channel: 4 channels

Rated power: <0.5W

Terminal: single terminal can connect up to
2 * 1.5mm or 1 * 2.5mm

Working environment: -20C-50°C, humidity <95%

Protection level: IP20
